Disclaimer: This White Paper contains the explanation about ASIX Token projects detailly. ASIX token itself is not a part of financial advisor, and we don't invite and force the investors to buy or do investment in ASIX Token. This investment is depends on the investors' decision.

1.INTRODUCTION

ASIX token is a token which is made by PT. Meta Nusantara Victory, which has purpseto fund the projects of P2E Games, NFT Marketplace, and Metaverse.

P2E Games are the games which bring play to earn concept, or the player can earn money in playing them.

ASIX token is under Binance Smart Chain Network on January 2022, and will be launched through Pancakswap platform. After lauching, ASIX token is targetted to be listed on local and global CEX.

Asix token is a crypto asset which is suitable to as a long term investment, because the ecosystem which is formed can do buy and sell transaction of NFT games and Marketplace.

The word ASIX is an abbreviation from the initial names of one of the most Indonesian artist family. They are Anang Hermansyah, Ashanti, Aurel, Azriel, Arsy, and Asya.

Anang Hermansyah here as the president commissioner of PT. Meta Nusantara Victory, and the Developer is MC Basyar.

2.ASIX TOKEN

Asix Token is officially launched on January, 28-th 2022 on Pancakeswap.

Total supply of ASIX token is 10.000.000.000.000.

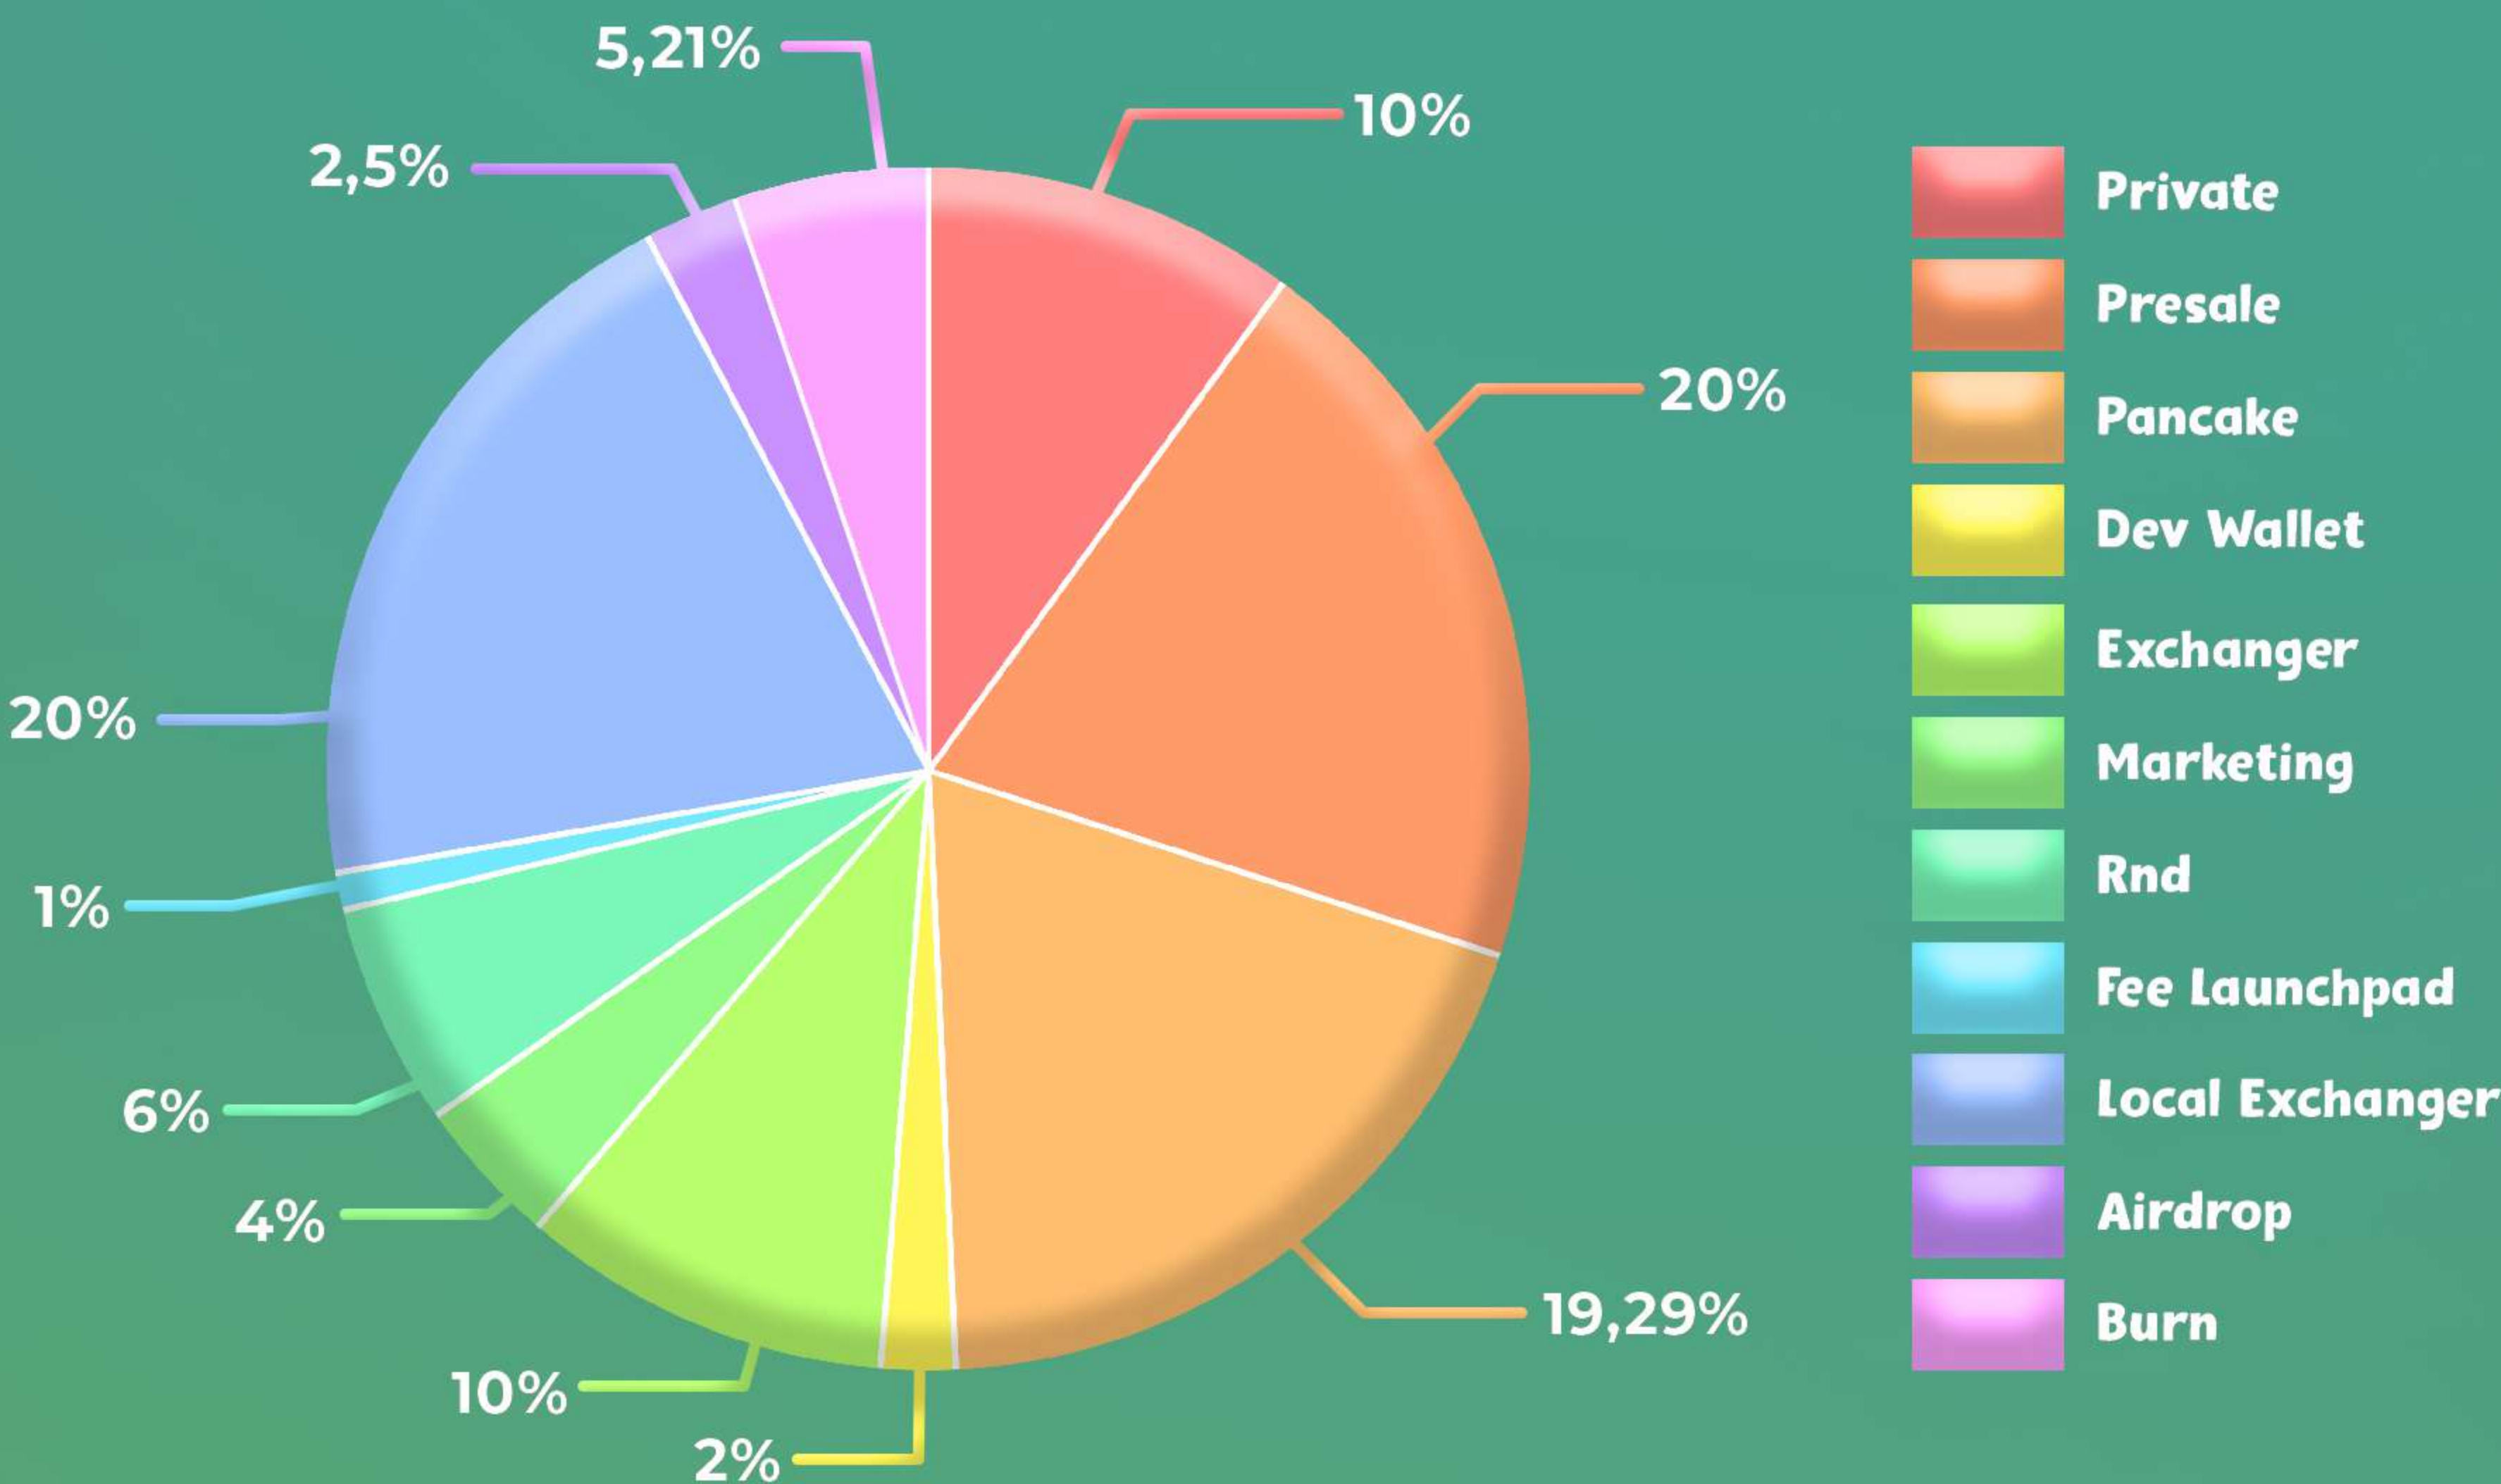

The supply is allocated for:

- Privatesale 10%
- Local Exchanger 20%
- Global Exchanger 10%
- Pancakeswap 19.29% (locked for 5 years)
- Developer Ownership 2% (locked for 2 years)
- Mrketing wallet 4%
- RND (Research and Development) 6%
- Launchpad Fee 1%
- Airdrops 2.5%
- Burning Wallet 5.21%

Then, for the investors. For the investors who take a part in private sale and presale, there is a vesting system. It means that the distribution is done by gradually method, 40% at launching, 30% at the first month after launching, and 30% at the second month. This is intended to prevent the chart, so that the price will not dump drastically.

3.TOKENOMIC

The tokenomic is designed to create public ownership in the majority and decentralised. This could be seen at the maximum purchase 0.5 BNB rate when private sale and presale. Beside it, ASIX token also creates a healthy investment atmosphere with a unique method in selling process of the token supply and the liquidity.

- Private sale
Private sale, 10% from the supply, will be distributed gradually. 40% when launching, 30% after a month, and 30% at the second month. Maximum contribution is 0.5 BNB.

- Public Presale
Public Presale, 20% from the supply, also will be distributed gradually. 40% when launching, 30% after a month, and 30% at the second month. Maximum contribution is 0.5 BNB.

- Liquidity
Total liquidity 100% per person, Public presale is 500 BNB worth.

- Vesting
Private and public presale vesting mechanism: 40% at launching, 30% at the first month, 30% at the second month after launching.

4.TAX SYSTEM

- Buy 7%
- Sell 9%
- Buy and Sell Tax are allocated in a wallet and locked gradually.

5.PROJECT

• P2E Game

Play To Earn Games; The games which will be made are Indonesian traditional games, which are intended to introduce Indonesian culture to the global.

The games we will develop are Congklak, Beckle, Layangan (Kites) Battlefield, Komodo Legends, and We Are Papua.

These games can be used for all smartphone user all over the world.

Each user will get points in each game, where the points can be swapped into crypto asset.

• Congklak

Congklak game is one of the traditional games wich is a cultural heritage in Indonesia.

This traditional game has many names in various regions in Indonesia.

Usually in the game of Congklak, shells, seeds, and small stones are often used as Congklak seeds.

• Bekel

• Layangan Battlefield

• Komodo Legends

• We Are Papua

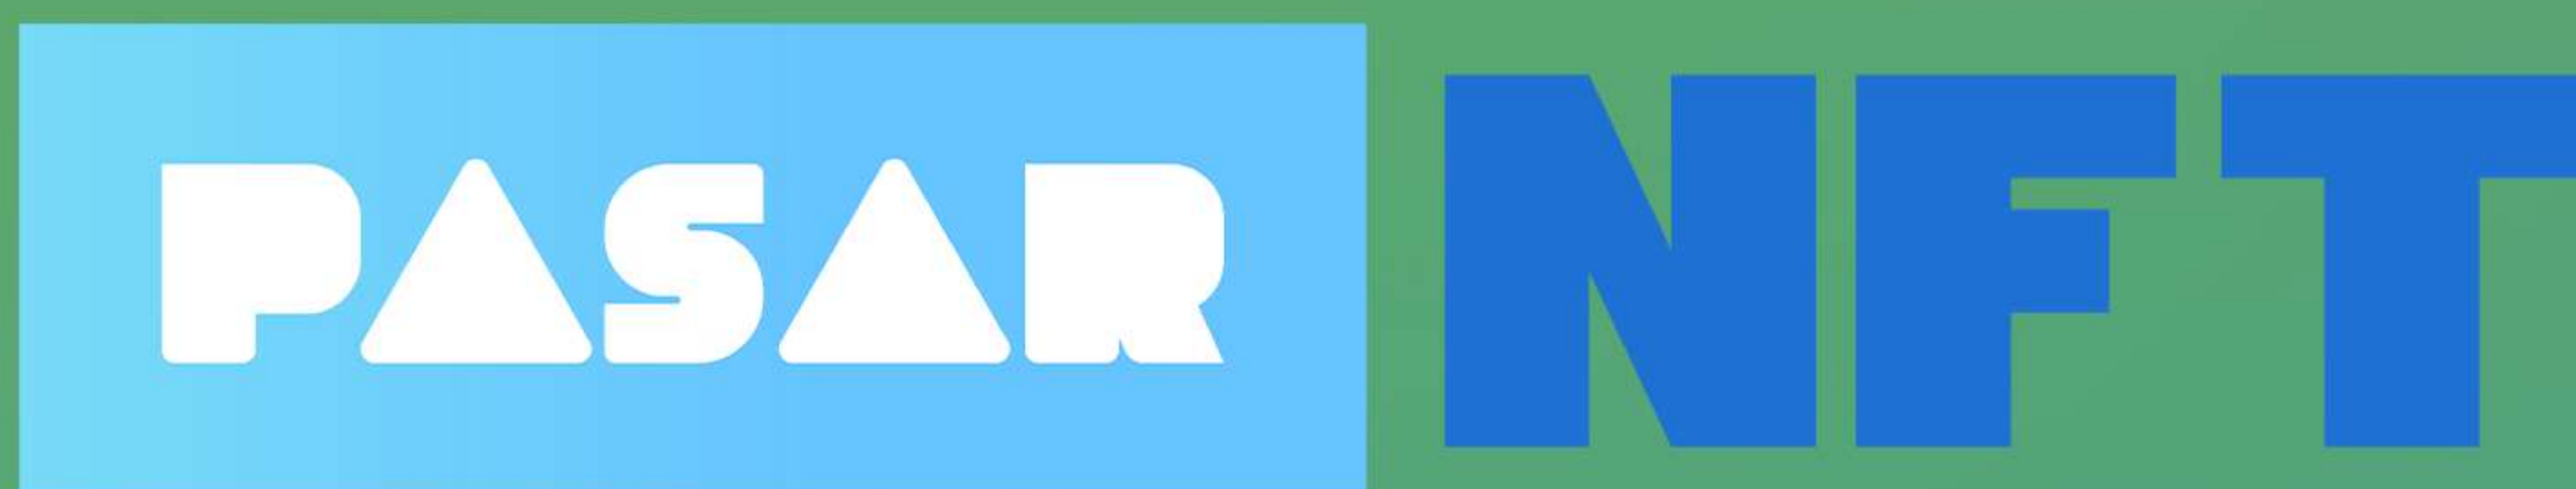

• NFT Marketplace

NFT Marketplace is a platform which is dedicated where NFT can be traded.

The NFT Marketplace it self also has the meaning of a market that is almost similar to other e-commerce to sell or buy goods but only specifically on the NFT products.

NFT Marketplace, we will call it Pasar NFT, is a platform for NFT, where the artists can sell their art creations, and for NFT enthusiast can buy an art creations in this platform.

• Metaverse (nusantaraland)

Metaverse project, is one of our project, we will call it Nusantara-Verse.

This is a part of Virtual World project which adopt the background of Indonesian culture, and later, each user can log in to our virtual world, with many features in it and get new experiences.

Metaverse is a virtual world term that allows you to carry out various activities like in real life such as meeting, working, playing, and buying and selling transaction with other users with augmented reality (AR) and virtual reality (VR) technology.
